St. Andrew's Prepares to "Raise The Roof" With Transformational Capital Campaign

St. Andrew's Episcopal School opened its doors to 981 K-12 students this school year, and we have much to look forward to! Having recently celebrated our 70-year anniversary in 2022, we are embarking on a transformational capital campaign, one that will enable all who enter the doors of St. Andrew's to obtain an exceptional educational experience. The Raise The Roof campaign is the largest in the school's history, planting the seeds for a truly remarkable future.

Most immediately, the school will build what will become the heartbeat of the Southwest Parkway campus. The Athletics Complex and Student Union will be a dynamic hub of the school that will nurture community spirit, support student activities and events, and foster holistic development. The Middle School program will relocate from St. Andrew's 31st

St. Andrew's graduate John Rufus Wallingford

Street campus to its Southwest Parkway campus in a new independent building for grades 6-8. This shift aligns with research indicating that aligning 6-12 curriculum enhances the educa-

tional experience for students and faculty.

An aligned 6-12 program will provide advanced academic opportunities for students, improve leadership

and mentoring development, provide broader access to state-of-the-art athletics and fine arts facilities, and allow for deeper collaboration between Middle and Upper School faculty.

The 31st Street campus, which currently houses grades K-8, will undergo a transformation as well. Among the planned improvements: new indoor/outdoor classrooms to engage children with the natural environment, Innovation and Design Labs that inspire young people to try new ideas, new Fine Arts spaces to help students shine.

This campaign will help St. Andrew's build scholars who change the world, artists who change lives, athletes who change their destinies, and servants who will carry the light of St. Andrew's Episcopal School into the future for generations.
