## EPISCOPAL SCHOOL K-12

***Celebrating 70 years!***  
1952 - 2022

St. Andrew's Episcopal School prides itself on the sense of community it creates among its students, faculty, and parents. Being an Episcopal school means that we are more than an educational institution: it means we are committed to the formation and nurturing of the whole human being: body, mind, and spirit.

Episcopal schools are marked by a balance between faith and reason, or "the head" and "the heart." We work to build a community that is welcoming, diverse, and authentically inclusive, where all are honored, supported, and valued. We make a commitment to the practice of service and the work of justice. These principles and ideals are woven into every aspect of our shared life together, and, combined with a robust and innovative curriculum and academic programming, they are what sets us apart as a community of learning.

While still dealing with challenges presented by the COVID-19 pandemic, the resilient 102 graduates from the Class of 2022 rose to the occasion showing their tough spirit and determination to succeed throughout the year. Collectively, they were accepted to 173 colleges around the world, and will be attending 64 different schools.

In the Class of 2022, 12% of the class plans to pursue majors in the arts, 21% plans to pursue a major in the STEM field, and 13% will study business.

In each of our students there is a Scholar, an Artist, an Athlete, and a Servant. This school year we are all on campus and looking forward to cheering on our athletes, celebrating our artists on stage and in the studio, serving our community and the greater good in Central Texas and continuing our pursuit of excellence in the classrooms.

St. Andrew's cultivates each of these traits through challenging and engaging programs to produce a well-rounded graduate; one who has explored all of their talents and is ready to pursue them confidently in the world.

With more than 980 students in grades K-12, the school is poised for a successful, invigorating, and 70th year!
