

# CAMP GUIDE 2023

## 26th Annual Brandy Perryman Shooting Camp

During the basketball season, if you walk into a local gym, you will most likely find a coach focusing his/her team on the offense or defense for the upcoming game. How often does the average basketball player focus on individual skills during that time? Not much!

For obvious reasons, the focus during the season is on the team rather than the individual. That’s why the summertime is the best time for an aspiring player to improve his/her own skills. Particularly the lost art of shooting.

Brandy Perryman knows a thing or two about shooting. His record 90% free throw shooting average during his 4-year career at The University of Texas still stands. He is also ranked 5th for 3 pointers made in Longhorn basketball history. Those 43 camps he attended as a child must have paid off. They are still paying off as Perryman prepares for his 18th annual Brandy Perryman Shooting Camp in the Austin area,

teaching boys and girls ages 7-16 the lost art of shooting.

BPSC is a 4-day shooting intense basketball camp mirrored after all the camps Perryman attended and enjoyed the most as a kid. He has taken those camps with his combined playing experience and created an upbeat, positive experience for Austin area youth.

All camps include 32 hours of instruction, which is approximately the same amount of time as a month of practice in Middle School or a full season of a youth league. Daily team competitions are the highlight of the week, allowing kids to be a part of a team with no pressure and to have fun. To promote self-

esteem and self-discipline, BPSC includes individualized drills and competitions throughout the camp that all campers have an opportunity to excel at and improve their shooting skills. An average camper shoots over 1,000 shots over 4 days at BPSC.

The 10:1 camper to coach ratio allows campers to develop skills in a small group. These coaches include head coaches, assistant coaches, collegiates, and former players that all share the knowledge and enthusiasm required to be a BPSC camp instructor.

By instructing 16,000 campers over the past 25 summers, BPSC has gained a reputation as the premier basketball camp in Central Texas.

# First Tee-Greater Austin

At First Tee – Greater Austin, golf coaches are Building Game Changers by empowering kids and teens to be the best version of themselves.

# Badgerdog Writing Workshops

Each spring break and summer, Badgerdog hosts writing workshops for rising third graders through high school seniors. These fun and challenging writing workshops allow students to work closely with a professional writer as they explore the arts of poetry, fiction, nonfiction, and playwriting. All campers experience the joy of reading, writing, and sharing their original work.

At the end of the summer, all three-week summer camp students will have their work published in one of two professionally produced anthologies -- Rise, for

elementary-aged writers; and Emerge, for middle- and high-school writers.

In the fall, Badgerdog hosts a Young Authors Reading & Anthology Launch, where selected campers perform their work and celebrate the launch of the anthologies. All summer camp writers are invited to attend.

Each online workshop meets daily, Monday through Friday, for an hour and a half to read, write, and share together via Zoom. These workshops will be capped at 15 students per workshop. Campers use Google Drive to upload their work and receive

feedback from their teaching artist as they move through the editing and revision process. Access to Zoom and Google Drive will be necessary in order to participate.

For more than 10 years, Badgerdog's Creative Writing Summer Camp has given Austin youth a space to fall in love with writing, discover authentic self-expression, learn from a professional writer, and publish original work. Parents say Badgerdog helps kids and teens write with greater skill, comfort, and enthusiasm. Campers say Badgerdog helps them find confidence and play in the writing process.
